PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of professional experience building production web applications with React, Next.js, and TypeScript. Delivered 19 client projects across AI SaaS, healthcare, and travel, building 170+ screens and integrating 320+ APIs. Builds responsive, animated interfaces, reusable component libraries, and complex validated forms with TanStack Query and React Hook Form. Also builds REST APIs with NestJS and Express.js (210+ created or extended), giving full-stack context when working with backend teams and clients.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
State and Data: Redux Toolkit, TanStack Query, React Hook Form, REST APIs
UI and Styling: Tailwind CSS, shadcn/ui, Responsive Design, UI Animations
Backend: NestJS, Node.js, Express.js, PostgreSQL, MongoDB, Prisma
Tools: Git, GitHub, Docker, Vercel, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer (Frontend-focused) | NxtWaveAI, Nayabazar, Kathmandu | Dec 2025 – Present

- Promoted from Full Stack Developer Intern; delivered 19 client projects in 10 months.
- Built 170+ responsive screens with Next.js, React, and TypeScript, integrating 320+ API endpoints through reusable components and data-fetching hooks.
- Created or extended 210+ REST APIs with NestJS and Express.js, covering authentication, CRUD, email, file uploads, and Excel exports.

ReachDR | Full Stack | reachdr.com.au

- Built the backend, delivering 129 CRUD REST APIs, and integrated every endpoint into the UI.
- Created and updated 35+ screens, keeping API contracts and UI in sync over 1+ month of development.

NxtReply: WhatsApp AI Sales Automation | whatsapp.nxtwaveai.com

- Built the product website for an AI sales agent that answers, negotiates, takes payment, and books delivery inside WhatsApp, Instagram, Messenger, and Viber.
- Developed responsive, animated sections including a video hero, an interactive chat demo, a 5-step sales flow, a live price-guardrail example, and a 6-step onboarding guide.

ComicSmith AI: Comic Portal, Early Access Page, and Admin Portal | Full Stack | comicsmithai.net

- Shipped the comic portal and a separate early-access landing page with 30+ screens, integrating 36+ APIs.
- Built 8 APIs, including email, contact, and a session-based flow that lets users upload photos from their phone to the desktop app.
- Developed the admin panel that controls both the portal and the mobile app: 45 APIs integrated, 19+ screens, and 2 email APIs including editable emails to users.

OCR Agent Pro | Full Stack | ocr.nxtwaveai.com

- Built 15+ screens with reusable components, integrating 21+ OCR and application APIs.
- Created 5 APIs, including contact and a session-based flow for uploading document photos from a mobile device.

Sai Baba Traders | Full Stack | saibabatraders.store

- Created 24 APIs and integrated 30+ into the frontend, building 5+ screens with shared components.

Animated Marketing Websites | Frontend

- Built Yugaya's landing page in 2 days: 8 animated sections plus an email API.
- Built the Murmur website with animations in 4 days, and developed 6 sections of the NxtWaveAI company website (services, industries, tools, FAQ, contact, and more).

Other Contributions

- Braight Kids: migrated the full React app to Next.js and integrated 6+ AI image and video generation APIs.
- SpellWizards: integrated 12 APIs across the parent and admin portals and built 6+ admin screens for auth and management flows.
- Project Manager: added @tagging in chat and comments, updated 10+ APIs, and reworked the kanban board, project cards, and member views.

Software Developer Intern | UpchaarNepal, Tokha, Kathmandu | Jun 2025 – Dec 2025

- Delivered 3 healthcare MVPs (Diagnostic, Clinic, and Pharmacy portals) by building a shared library of reusable React and TypeScript components.

- Reduced redundant API calls across all 3 portals by implementing data fetching, caching, and background sync with TanStack Query.
- Improved data accuracy in patient and order records by building complex multi-step forms with React Hook Form and schema validation.
- Integrated frontend portals with RESTful APIs built on Node.js, Express.js, and MongoDB, working directly with the backend team on API contracts.

PROJECTS

Formaker | Next.js, PostgreSQL, Prisma, Gemini API | formaker-beta.vercel.app

- Built a dynamic form builder where users create, manage, share, and collect responses to custom forms.
- Sped up form creation by integrating the Gemini API to auto-generate questions and validation rules from a short prompt.

SocialBook | Next.js, shadcn/ui, Clerk, PostgreSQL | social-book-psi.vercel.app

- Developed a social media platform for creating and sharing text and image posts, with likes, comments, and user profiles.
- Built a responsive, accessible UI with shadcn/ui and secured user accounts with Clerk authentication.

GuGa Chat | React, Socket.IO, Node.js, MongoDB | guff-gaff-umber.vercel.app

- Built a real-time chat app with instant messaging, live updates, and online presence indicators using Socket.IO.

FeastWave | React, Node.js, Express.js, MongoDB, Stripe | github.com/lihasahil/Food_Delivery_App

- Developed a food delivery platform with separate user and admin panels, cart, order tracking, and Stripe checkout.

EDUCATION

Bachelor of Engineering in Computer Engineering | Himalaya College of Engineering, Lalitpur, Nepal | Apr 2022 – Jun 2025

CERTIFICATIONS

- Responsive Web Design – freeCodeCamp | freecodecamp.org/certification/SahilShrestha/responsive-web-design
- MERN Stack Training (2025) – Himalaya College of Engineering in partnership with Broadway Infosys
